Let's Talk Essay Work Activity

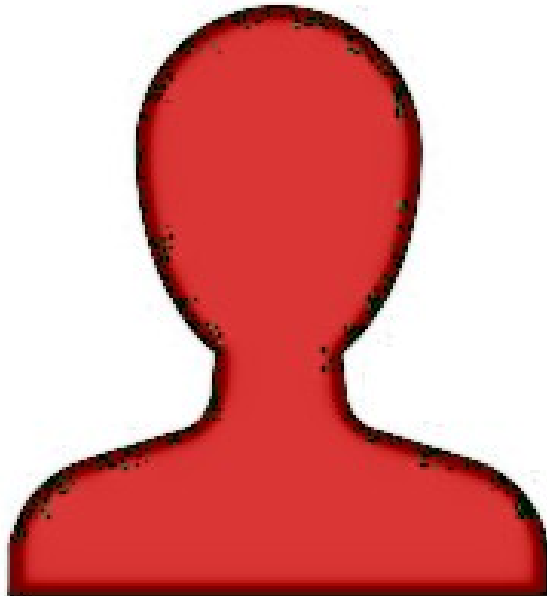

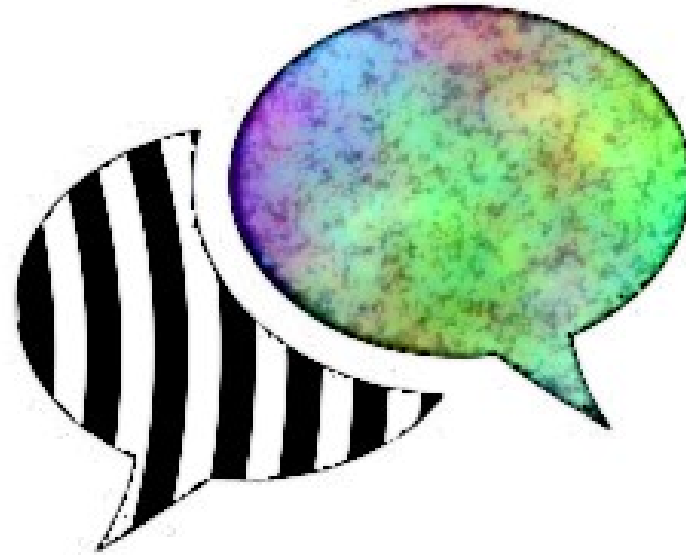

10th November

Fall 2021

Oliver BONHAM-CARTER

Let's Talk About the Essay

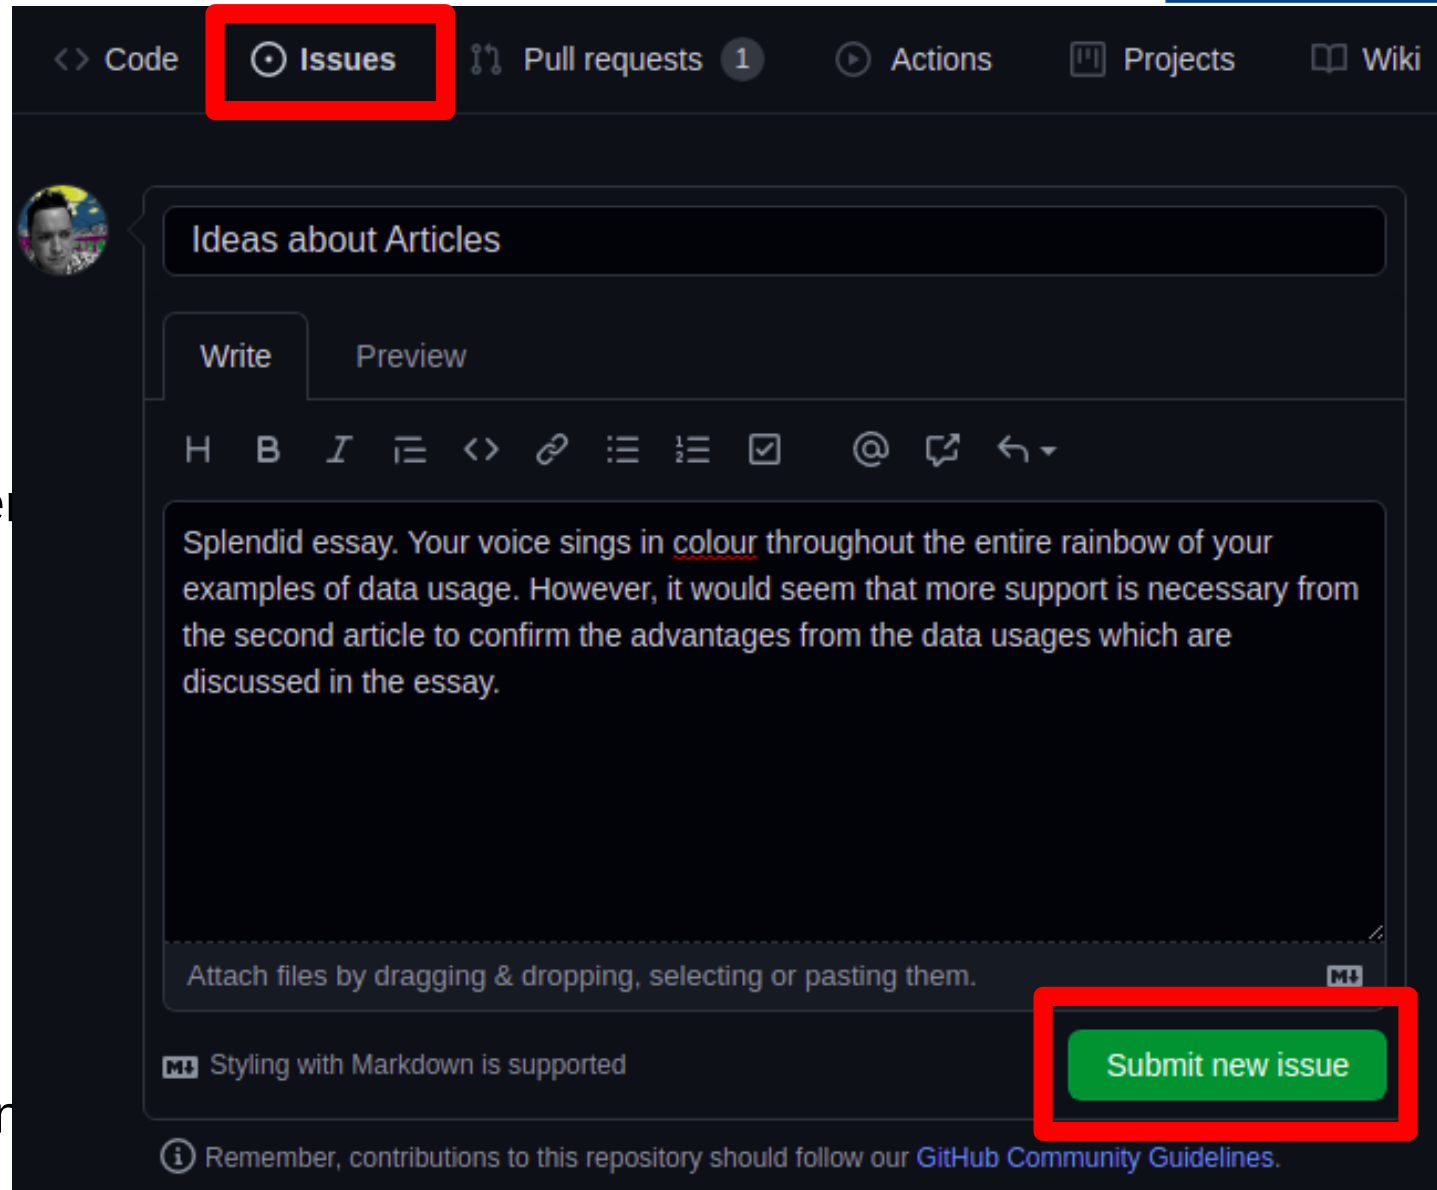

Talk to Your Partner

Leading Questions

- What is the premise of the essay?
- What is the focus on the technology or data usage?
- What are the benefits and disadvantages of the focus?
- What are the relevant articles?
- How does each article provide evidence to support the argument of the essay?
- What ideas do you have to improve the essay with the *Reference-based Support* from the articles?

What is the Issue Tracker?!

- Each GitHub repository has a place to leave comments and ideas for the owner of the repository.
- Click *Issues*, then write your comments.
- Save your work with the *Submit New Issue*.
- Note: You may need to give access to partner to add an issue.

The screenshot shows the GitHub interface for creating a new issue. At the top, the navigation bar includes 'Code', 'Issues' (highlighted with a red box), 'Pull requests', 'Actions', 'Projects', and 'Wiki'. Below the navigation bar, the user's profile picture is visible on the left. The main content area has a title 'Ideas about Articles' and two tabs: 'Write' and 'Preview'. Below the tabs is a rich text editor with various formatting icons (bold, italic, link, etc.). The text entered in the editor reads: 'Splendid essay. Your voice sings in colour throughout the entire rainbow of your examples of data usage. However, it would seem that more support is necessary from the second article to confirm the advantages from the data usages which are discussed in the essay.' Below the text area is a file upload section with the text 'Attach files by dragging & dropping, selecting or pasting them.' At the bottom of the form, there is a green button labeled 'Submit new issue' (highlighted with a red box) and a footer note: 'Remember, contributions to this repository should follow our GitHub Community Guidelines.'

Back to Assignment 5:

Add your comments to the ISSUE TRACKER

You are to have a conversation with your partner about her or his essay from Assignment 5. Follow the leading questions and add your responses to them as an ISSUE TRACKER message of the repository.

GitHub Classroom Repository.

<https://classroom.github.com/a/KXTPnVMY>

- Please be sure to add your name when you post your Issue message regarding the responses to the leading questions for credit.
